SUMMARY

Motivated and detail-oriented Full Stack Developer with a strong foundation in front-end and back-end technologies, including HTML5, CSS3, JavaScript, React.JS, Python, Django, Flask, and MongoDB. Adept at building responsive, scalable web applications and RESTful APIs.

INTERNSHIP

NoviTech R&D Private Limited

Full Stack Development - [Dec2024 - Jan 2025]

- Developed full-stack web applications using HTML, CSS, JavaScript, React.JS, Node.JS and MongoDB.
- Collaborated on both front-end and back-end development tasks, ensuring responsiveness and cross-browser compatibility.
- Contributed to improving the performance, scalability, and user experience of web applications.

PROJECTS

1. E-commerce Project [[GitHub](#)]

- Implemented a user authentication system with registration, login, and logout functionality.
- Developed a shopping cart with add, remove, update quantity, and Buy Now features.
- Built an admin dashboard for managing products add, edit, delete, remove.
- Created reusable templates extending base.html for consistent UI and branding.
- Designed a mobile-responsive interface with Bootstrap for enhanced user experience.

2. Student Management system [[GitHub](#)]

- Student Registration Form: Enables secure input and storage of student data (Name, Roll No, Email ID, Phone No, Course, Year).
- Attendance Marking Form: Teachers or admins can mark present or absent status for each student on a specific date.
- Attendance Record View: Displays attendance history in tabular format, filterable by student roll number and date.
- CRUD Operations: Full Create, Read, Update, Delete functionalities for managing student data.
